Tutor Name: Justin Martin

What are you majoring in and why?
Cosmological Physics.
- The universe is so vast, we cannot comprehend its size.
- To explore the unknown is only human nature.
- It is up to us to write history with what we do with our lives.

Name a goal you would like to accomplish within the next year.
I plan to graduate with my associates degree by the end of this semester.

What advice would you give to other students?
Join clubs and keep busy, otherwise, the year will seem like a century.

More About Your Tutor...
